CALAC AREA REPORT

SFUND RECORDS CTR
2166-00845

Attachment 11

INTRODUCTION

INTRODUCTION

The CALAC Area Report is a compilation of the land and building areas administered by the Lockheed-California Co.

The first three sections of this report tabulate various area statistics in several orders of classification. The largest section is number IV which lists by plant, the quantity of allocatable square feet of each building sub-divided by floor and use/category. Parking lot information is found in Section V. The sixth section summarizes the changes since the last report. Section VII provides selected production information. Section VIII comprises the Appendix where explanation notes, definitions, and other supporting data can be found.

All controlled building areas are maintained by EDP record system which is updated monthly from approved allocation notices. Each notice geographically shows the new area assignments and its recorded characteristics.

Monthly computerized tabulations are maintained in the Facilities office for control purposes in planning and allocating facilities requirements.

The data in this report reflects the area condition for the end of the period shown on the title page.

AREA BY ORGANIZATION

BUILDING AREA BY BRANCH AND USE/CATEGORY

Branch	Factory	Lab	Office	Warehouse	Special*	Total
Manufacturing	2,372,953	24,725	186,044	118,143	16,152	2,717,567

DEFINITION OF BUILDING CATEGORIES

Factory

Area used to perform manufacturing functions (i.e., fabrication, processing, subassembly, major assembly, etc.).

Laboratory

Area used to perform general physical research and development (i.e., testing, calibration, evaluation, etc.).

Office

Area used to perform desk and board functions (i.e., administrating, accounting, engineering, designing, etc.). Also includes conference rooms and trailer modules used to perform these functions.

Warehouse

Area used for storage functions (i.e., shipping, receiving, storing, accumulating and holding, etc.).

Special

Areas built and used for specific purposes other than previously mentioned, include: Cafeterias, Canteen areas, Conference Rooms, Covered Docks, Data Processing Machine Areas, Electrical Substations, Fire Stations, Garages, Hospitals, Main Aisles, Portable Buildings, Rest Rooms, Special Facility Installations, Wind Tunnels, etc.

DEFINITION OF USE FUNCTIONS

The Lockheed-California Company classifies all area into four major groupings:

- Direct Area = area used for "Hardware" manufacturing functions.
- Indirect Area = all other company-occupied area.
- Non-Calac = area assigned or leased to non-company organizations.
- Unallocated = unassigned area.

The major groupings are, in turn, divided into five categories representing basic operational functions:

- Factory
- Laboratory
- Office
- Warehouse
- Specialized

Individual assignments of area are further identified according to specific work elements to be performed therein, i.e.: Fabrication, Assembly, Engineering Desk and Board, Manufacturing Services, Executive Administration, etc.

Current work elements are defined as follows:

DIRECT AREA

FABRICATION

Area in which purchased stock material is systematically and/or progressively worked into product-line detail parts or part-components. Includes area for functions and operations such as: Sawing, shearing, drilling, stamping, forming, shaping, stretching, blanking rolling, piercing, routing, machining, joggling, laminating, casting, molding, etc.

DEFINITION OF USE FUNCTIONS

DIRECT AREA (Continued)

PROCESSING

Area in which stock material, part components, and/or detail parts are chemically or mechanically cleaned, coated, or converted. Includes all area for processes such as: Electrochemical plating/coating/stripping/cleaning; Heat/cryogenic treatments and annealing; Chemical milling/etching; Dip/brush/spray degreasing/protective coating/painting; Pickling; Shot/sand/glass-bead peening and blasting; Tumble/wheel/vibrator deburring and polishing, etc.

NOTE: DOES NOT INCLUDE "FINAL PAINT."

SUBASSEMBLY

Area in which the primary function is the mating, fitting, fastening, and/or the permanent joining of two or more product-line detail parts or part-components to create an identifiable new part, part-component, or functional unit. Includes processes and operations such as: Bench, jig, and wireboard production activities; Adhesive bonding and cementing; Welding, brazing, soldering; Riveting, stitching, stapling, crimping; potting, sealing, encapsulating, etc.

MAJOR/FINAL ASSEMBLY

Area in which product-line major sections and related function, control, support, and/or service systems, furnishings, accoutrements, etc. are integrated, mated, joined, installed, painted and acceptance-tested into saleable end-items.

DEFINITION OF USE FUNCTIONS

DIRECT AREA (Continued)

OVERHAUL/REPAIR/MODIFICATION

Area in which "in-service" product-line units are repaired or modified under customer contract or license. May include work elements, functions, and operations normally performed in each of the other manufacturing area-use categories.

ADVANCED DEVELOPMENT PROJECT

Controlled-access areas in which company, customer, and/or Government-classified products are manufactured, tested, repaired, modified, and/or stored. Includes area for all manufacturing functions and operations.

INDIRECT AREA

ENGINEERING DESK AND BOARD

Area assigned to organizations and activities involved in the development, refinement, improvement, and/or advancement of current and proposed product lines and models. Includes area for functions such as: Product, component, and/or systems design, review, evaluation, and analysis; Sales and test models/mock-up, assembly, display; Concept definition/review/evaluation; Test design, planning, analysis, etc.

NOTE: Also includes "classified" desk and board areas.

DEFINITION OF USE FUNCTIONS

INDIRECT AREA (Continued)

ENGINEERING SERVICES

Area assigned to activities and/or organizations expressly created and staffed to support the various engineering disciplines and technical functions. Typical services include: Illustration, layouts, printing, and distribution of technical papers, manuals, reports, books, etc. (including operation of Company library); Scientific computer and data-processing services; Provisioning, layout, and, allocation of engineering facilities; Operational, systems, budget, and program administration/controls; etc.

RESEARCH, TEST, AND, DEVELOPMENT

Area assigned to activities and organizations involved in the specification, execution, and/or evaluation of experiments, tests, and controlled demonstrations intended to advance, certify, prove and/or qualify new materials, components, systems, theories, and/or design concepts. Included are functions such as: Wind tunnel tests and model building; Chemical/physical sciences laboratories; Manufacturing research; Experimental tooling/mockup; Radio/radar/electronic laboratories and test sites; Proto-type mockup and fabrication; etc.

DEFINITION OF USE FUNCTIONS

INDIRECT AREA (Continued)

MANUFACTURING SERVICES

Area assigned to functions and/or organizations which assist or support direct manufacturing activities. Includes area occupied by: Manufacturing and tool planning/control; Tool design/make/repair; Standard tool and blueprint cribs. Manufacturing and liaison engineering; Order writing; Parts inspection; Instrument repair/calibrations; Fabrication/production control activities; Factory transportation, etc.

PLANT SERVICES

Areas assigned to functions and/or organizations involved in the planning, design, maintenance, control, and provisioning of the physical plant, premises, and environs. Includes area assigned to activities such as: Facilities Engineering/planning/control; Buildings and equipment maintenance/repair; Plant order/cleanliness/salvage operations; Highway transportation; Shipping - Receiving; etc.

FACILITY-UTILITY INSTALLATIONS

Buildings or building areas designed, designated, furnished, and/or equipped for personnel and/or operational facility/utility purposes. Includes: Aisles, stairways, elevators, security vaults, restrooms, foyers, reception lobbies, conference rooms, boiler rooms, communication/electrical switchgear installations, covered docks, portable buildings, etc.

DEFINITION OF USE FUNCTIONS

INDIRECT AREA (Continued)

FOOD SERVICE

Area provided for the preparation, serving and selling of food items. Included are cafeterias, hot and cold vending areas, etc.

PRODUCT SUPPORT AND CUSTOMER SERVICES

Area assigned to activities and/or organizations whose prime function is to develop and provide product-line operational, maintenance, modification, and/or repair training and manuals; Training aids; logistics, kits, other provisioning, and field liaison for any and all "in-service" product-line models. Includes area for functions such as: Provisioning, packaging, and shipping of spare and/or modification kits, parts, and supplies; Customer crew-training, technical services, and, orientation activities.

STORAGE/WAREHOUSING

Area (usually secured) assigned to functions and/or organizations for the accumulation, hold, deposit, and/or impounding of production and nonproduction materiel, parts, tools, and/or equipment for inventory/security/in process/or dead-storage, and control purposes. Includes area for: Active-inactive tool storage; Stationery supplies; GFE-GSE impound storage; Production stock/store cribs; Records/files warehousing, etc.

DEFINITION OF USE FUNCTIONS

INDIRECT AREA (Continued)

ADMINISTRATIVE SERVICES

Area assigned to activities and/or organizations charged with management, surveillance, and/or control responsibilities over general plant operations. Typical administrative services include: Employment; Industrial safety/security; Medical/first aid; Employee training/education; Industrial/Labor relations; Timekeeping/standards, Property/payroll accounting; General data processing, reproduction, photo and reproduction services; Financial/tax/legal services — up to Division level. (See below Executive Administration for Director or higher)

EXECUTIVE ADMINISTRATION

Office areas assigned to individuals and/or organizations involved in formulating, implementing, directing and/or monitoring company-wide policies and procedures. Also, office areas occupied by customer and vendor management-representatives and, by ranking resident officials of governmental and/or industry regulatory/surveillance agencies.

NOTE: FOR AREA ALLOCATION PURPOSES, "EXECUTIVE ADMINISTRATION" IS DEFINED AS CALAC DIRECTOR-LEVEL AND HIGHER MANAGEMENT POSITIONS.

DEFINITION OF USE FUNCTIONS

INDIRECT AREA (Continued)

SUPPORTING VENDOR, SUPPLIERS AND CONTRACTORS

Area provided (rent, lease, no-charge) to various companies who sell their product/services to Lockheed.

U.S. GOV'T AND AGENCIES

Area provided (rent in direct support of Calac programs, lease, no-charge) to the U.S. Gov't and agencies in direct support of Calac programs. (Included are U.S. Army, U.S. Navy, F.A.A., etc.)

CUSTOMER (FOREIGN & DOMESTIC, EXCEPT U.S. GOV'T)

Area provided (rent, lease, no-charge) to companies who acquire Calac product-line.

UNALLOCATED AREA

VACANT

Any unoccupied area.

NON-COMPANY (EXCEPT VENDOR SUPPORT)

CORPORATE

Area which is assigned to Lockheed Aircraft Corporation (Corlac) and used by the corporation for any purpose.

DEFINITION OF USE FUNCTIONS

NON-COMPANY (EXCEPT VENDOR SUPPORT)

(Continued)

FURNISHED OTHER LOCKHEED

Area provided to Lockheed organizations other than Calac or Corlac. Included are Gelac, L.M.S.C., L.A.S., etc.

COMMERCIAL SUB-LEASED AREA

Area which is commercially sub-leased to others and is not used in support of any Lockheed program.

EXAMPLES OF AREA-UTILIZATION CODES

- F1 Fabrication Area - Factory Function
- 01 Fabrication Area - Office Function
- L6 Classified Area - Laboratory Function
- F6 Classified Area - Factory Function
- W6 Classified Area - Warehouse Function
- 0A Administrative Services Area - Office Function
- SA Administrative Services Area - Special Purpose (Hospital)
- 0R R & D Area - Office Function
- LR R & D Area - Laboratory Function
- SR R & D Area - Special Purpose (Wind tunnel)

DEFINITION OF OTHER FACILITY TERMS

Plant

A geographical location for a complex of buildings and/or other facilities dedicated to the manufacture of or the support of manufacturing activities for a given product or a line of products. An industrial complex with predetermined perimeter boundaries.

Site

Division of Area geographically located within Air Force Plant 42 complex at Palmdale, California.

Unit

Any building or building complex owned or leased by the Lockheed-California Company which is located outside of the perimeter fencing of any of the various CALAC plants.

Building

Any structure with four surrounding walls, roof and permanently attached to a foundation.

Covered Dock Area

Roofed dock areas that may or may not be partially enclosed.

Module

Area built by mating relocatable modules to provide space for office functions. This is generally considered to be on a temporary basis.

Portable Building

Readily movable CALAC owned buildings located on a temporary foundation. (These building areas are not allocated or occupancy controlled and are tabulated as a single line entry by Plant/Unit.)

DEFINITION OF OTHER FACILITY TERMS

First or Ground Floor

The building floor which is essentially on the same level as the adjoining land area on which the building is constructed.

Mezzanine

An intermediate floor located between a floor and ceiling of any main story. A floor level that extends over only part of a main floor.

Year Built

Denotes the recorded Property Accounting year of acquisition or date of the building's last major rehabilitation.

UNITS OF MEASURE

Unless otherwise stated, all building areas are expressed in square feet and all land areas are expressed in acres.

APPLICABLE AREA CODES

OWNERSHIP CODE KEY

1. Calac
2. Government
3. LAT & Other Lockheed Lease
4. Commercial Lease

FLOOR CODE KEY

- | | |
|----|-------------------------------|
| 00 | Basement |
| 10 | Ground Floor |
| 11 | Ground Floor First Mezzanine |
| 12 | Ground Floor Second Mezzanine |
| 20 | Second Floor |
| 21 | Second Floor First Mezzanine |
| 99 | Covered Dock Area |

CATEGORY CODE KEY

- | | |
|----|------------------|
| F | Factory Area |
| L | Laboratory Area |
| O | Office Area |
| W | Warehouse Area |
| S* | Specialized Area |

*Special category includes all other areas such as Cafeterias, Canteen Areas, Conference Rooms, Covered Docks, data Processing Machine Areas, Electrical Substations, Fire Stations, Garages, Hospitals, Main Aisles, Portable Buildings, Rest Rooms, Special Facility Installations, Wind Tunnels, etc.

USE CODE KEY

- | | |
|-----|-----------------------------------------------|
| "X" | Category code determined by how area is used. |
| X1 | Fabrication |
| X2 | Processing |
| X3 | Subassembly |
| X4 | Major Assembly |

APPLICABLE AREA CODES

USE CODE KEY (Continued)

X5	Overhaul, Repair/Modification
X6	Advanced/Classified Projects
XA	Administrative Services
XB	Customers (Foreign & Domestic, except U.S. Gov't.)
XC	Product Support and Customer Services
XD	Engineering Desk and Board
XE	Engineering Services
XF	Facility-Utility Installations
XG	U.S. Government & Agencies
XH	Commercially sub-leased to others
XL	Furnished Other Lockheed
XM	Manufacturing Services
XO	Food Services
XP	Plant Services
XR	Research, Test and Development
XS	Storage
XU	Unallocated (Vacant)
XV	Vendors, Suppliers and Contractors
XX	Executive Administration
XY	Corporate (all functions)

EXAMPLES

F1	Fabrication Area - Factory Function
O1	Fabrication Area - Office Function
L6	Classified Area - Laboratory Function
F6	Classified Area - Factory Function
W6	Classified Area - Warehouse Function
0A	Administrative Services Area - Office Function
SA	Administrative Services Area - Special Purpose (Hospital)
OR	R & D Area - Office Function
LR	R & D Area - Laboratory Function
SR	R & D Area - Special Purpose (Wind tunnel)
